

'FSTVL Uplifting Trance' from Trance Euphoria features 20 uplifting Trance Construction Kits in WAV and MIDI formats, also including Spire presets. Inspired by all the top uplifting Trance artists and festival from around the world, this pack brings you the best quality tools for your productions.

Kits:

Each Kit includes all drum parts, from kicks compressed & not compressed, to several percussion loops. Wet and dry loops for all the main parts are also included, with filter up and down loops, plus wet tails for pad parts. All MIDI parts are included along with a mixdown demo for each Kit. Folder structure is smartly arranged for ease of use. You have complete control as each Kit will give you song ideas to start your next Tech/Trance smash.

Advantages With MIDI:

With MIDI you have the ultimate in flexibility being able to edit notes, velocity and assign your own sound. These are easily imported to any DAW by either drag and drop or import MIDI options in your DAW.

These MIDIs are also a great source of inspiration for those writers block moments. Even the pros need motivation and inspiration from time to time. You can learn how these sounds have been constructed and change/tweak the MIDI to your own taste.

With the included presets you have complete control and can replicate the sounds you hear and that have been rendered for you to use in each Kit, you can tweak and do what you want to achieve your own sound.

Please Note:

Please use Spire version 1.1.12 or higher. Keep your software legal and up-to-date to avoid any issues when loading your new presets.
