100 Future RnB Channelstrips for Logic Pro X

Big Sound presents Future RnB Channel Strips for Logic X, a forward thinking collection of shimmering RnB sounds for using in your music. This one was created by Insight with the intention of bringing chart-quality sounds to you. By purchasing this pack, you receive a stunning collection of smoothest RnB sound tools with the addition of various modern electronic textures.

Our goal was to create the highest possible quality of the instruments from Logic X and to show the real power of this daw

All of the sounds perfect tweaked, down to the smallest details in ADSR timing, modulation inside the synths and insert chain parameters to make all these sounds extremely usable in your productions and hold up in a mix.

This pack includes 60 MIDI files, allowing you to seamlessly create your own melodies and to learn the technique in layering for getting a great sounding mix.

Advantages of MIDI - MIDI has the added benefit of allowing you to go to extremes of pitch and tempo beyond which the loops were originally recorded, with no time stretching or pitch shifting artefacts.

This pack also includes 5 custom EXS24 drum kits allowing you to create new beats, fills and loops to complement the existing material. Simply load them up into EXS24 and create an infinite number of new grooves and phrases.

All of the loops in this product are 100% Royalty-Free, so once purchased, you can use these loops in your commercial releases without having to pay any hidden costs.

Future RnB Channel Strips for Logic X is the most usable channel strips pack on all the market to date, with the sounds that could be effectively applied to a vast array of genres.

This is a great addition to our channel strips collection from our label and we sure you'll love it.

Every sound featured in the audio demo is INCLUDED in this sample pack!

*PLEASE NOTE: a channel strips & Logic project have been made in Logic Pro X v.10.4.4 and compatibility with older versions of Logic is not guaranteed !
