

D-Fused Sounds are proud to release "80's Nostalgia for Serum 2", an inspiring set of sounds blending retro 80's and 90's music with futuristic character for modern producers.

Featuring 70 presets, this new release is suitable for synthwave, outrun, retrowave, or any music infused with vintage 80s vibes and includes classic basses, catchy leads, stunning pads and amazing synths, ready for you to explore and customize to your own taste with lots of the sounds pre-programmed with modulation wheel, aftertouch and macro mappings for easy tweaking.

Embark on a sonic journey through the neon-soaked streets with "80's Nostalgia for Serum 2" and immerse yourself in a world where vintage meets modern!

Please, note that "80's Nostalgia for Serum 2" contains only Serum 2 presets.
