

HighLife Samples returns with another amazing Ableton Thunder Template. This is a very useful EDM template for beginner and pro producers. Spice up your music ideas with this great template. If you are a fan of Electro House, Progressive and EDM sounds like Hardwell, W&W, Sander van Doorn, Dimitri Vegas, NERVO, Showtek and David Guetta, then this template is for you.

This project uses only two third party VSTi instruments: Reveal Sound Spire and Lennar Digital Sylenth1. Includes the full arrangement with WAV files, MIDI files, instrument presets, mixing, track leveling, Side Chain, Drums, Basslines and automation of each instrument.

This template is a 100% royalty-free template project. This means you can change parts of the track with your melodies and your ideas or release the whole track just as it is.

You can use this project as an educational and inspirational tool to learn how all the sounds can be fit together to create a full, solid sounding tune.

Also you will find all the presets and MIDI files that were used in this project and import them into your own projects.

Buying this template project is an easy way to learn fast how to create a solid EDM track.

In order to run this project fully you will need the following:

- Ableton Live 9.1.2 or later
- Reveal Sound Spire VSTi V1.0.18
- Lennar Digital Sylenth1 VSTi V2.21
