'Ableton Uplifting Trance Vol.3 it's the following up Ableton template series by HighLife Samples.

If you are producing Trance music in Ableton Live and would like to learn new techniques of how to build tension to the track, get some extra inspiration, or improve your productions, then 'Ableton Uplifting Trance Vol. 3' is a template that you must check out.

This template was created with the highest standard of today's Trance music and it will help you to push your Trance productions to the highest point.

Studying this template file will give you a great insight into the processing of mixing, mastering, layering, equalization, side chain, delay, reverb, compression, FX chains, Group Channels, Midis, and channel automation.

Learn how the melodies & bassline patterns were designed, and overall, an excellent way of learning more about producing Uplifting Trance in Ableton Live.

You can use this project as an educational and inspirational tool to learn how all the sounds can be fit together to create a full, solid-sounding tune.

Please note that you are not allowed to export the track from the Template Project and release it as it is but feel free to edit the template content, re-arrange and import your own MIDI melodies and make a brand new track and then you can release it out in the music market as a commercial track. Buying this template project is an easy way to learn fast how to create a solid Trance track.

Inside of this pack, you will find the Ableton 11 project file, a folder with all midi files and a separate folder with all the synth presets from Sylenth, Spire, and Massive.  Also, we include a folder with all the audio wav stems 24 bit for those who are using different DAW like FL Studio, Logic , Cubase e.t.c . You can import the stems files inside your DAW and edit, re-arrange and work as you like.
