'Afro House for Serum 2' by Immense Sounds features an outstanding 50 x Serum 2 Presets with all 8 macros assigned, bringing up-to-date sounds for your next or current Afro House projects.

Afro House is an electronic dance genre that fuses the steady four-on-the-floor pulse of house music with Afro-inspired rhythms, percussion, and musical textures. Typically sitting around 118–125 BPM, it stands out for its layered, syncopated grooves and polyrhythms—often built with congas, shakers, claps, and other organic percussion that adds swing and a more "live" feel than standard club programming.

The sound is both atmospheric and driving: deep basslines, warm pads, and minimalist or melodic hooks are often paired with chants or soulful vocals, plus touches of organic instrumentation alongside modern synths and effects. Rooted in African club culture but embraced worldwide, Afro House ranges from deep, spiritual, hypnotic cuts to more energetic, peak-time tracks—always centred on groove, rhythm, and a communal dancefloor connection.

This is a must-have sound set for all Afro House producers containing Basses, Keys, Leads, Pads, Plucks, and Synths of super fresh inspiring, modern sounds for your toolbox, also contains 50 MIDI files, and 50 WAV Loops demonstrating each serum 2 preset which can be used royalty-free.
