

#### DESCRIPTION:

In recent years techno music is hugely back on the dancefloors & dance scene. Apollo Sound can't ignore this fact, that's why we've made our first techno sample pack called Aftertouch Melodic Techno Samples. The pack offers you a rich sound palette of the best melodic techno samples, loops, melodies & more. Let's take a look inside...

We've used 15+ different top-notch hardware & virtual synthesizers to make this collection extra exclusive & super melodic. So it is logical, therefore, that the main thing in this pack is melodic loops & chord progressions. You'll receive a huge amount of supersonic mellow keyboards, flowing arpeggios, extra deep pads and more. As usual, it also includes industry-standard techno drum loops & suitable synth basses. And if you want to resample any music loops, no worries, we have fully detailed midi files inside.

Besides the loops, you'll find a collection of custom-made techno drum samples (drum hits), atmospheric sound effects, and the set of techno synth patches (synth presets) for your favorite synths: Serum & Massive. For your convenience all the one-shots & effects are staffed in NI Kontakt sampler patches, so you'll also get Kontakt drum kits to play with. Yeap, all this is inside!

This pack is inspired by such great artists of melodic techno subgenre like Art-Bat, CamelPhat, Yotto, Solomun & Marino Canal. To the point, melodic techno is a subgenre that is tightly related to Deep House & Progressive House. So this pack greatly fits the genres listed above but also can be useful to producing any other style of modern electronic music. And no worries, it's 100% Royalty-Free so you can use it in any commercial project. So make less drama & more techno!

Please note: Every sound featured in the audio demo is INCLUDED in this sample pack!

#### SPECS:

1228 Sound Files Total;  
Full Archive Size: 1.62 GB;  
12 Construction Kits;  
110 Drum Loops (25 Full, 85 Stems);  
25 Synth Bass Loops (+midi);
