

“Amazing Serum” is something more than just a Serum Soundbank. Each sound generates something completely different but they have one thing in common – Retro feelings. This pack was produced by Mike Ost. 80 retro stylized sound presets for Serum (Arp Bass, Pad, Synth) come together with 8 inspiration templates for Ableton, FL Studio, Cubase, Studio One, and Logic Pro.

Every project uses sounds from soundbanks so you can check the example use of it and inspire yourself.

Also, all MIDI files are included in the pack. As a bonus, you’ll get 30 Samples (Drum Loops, FX, One-Shots) and 7 vintage noise sounds implemented in Serum.
