

**DESCRIPTION:**

We are happy to present you the Ambient Chord Progressions sample pack. The next one in our brand new "Chord Progressions" series. This is an indispensable thing for Downtempo, Chillout, Ambient producers or Production/Cinematic Music makers. Especially if you are looking for fully ready smooth pads, mystical synths, celestial beds, sci-fi atmospheres, festive keyboards or high quality midi chord progressions to create your own tunes - you'll find them all here.

The pack includes 100 attractive ambient loops (pads, keyboards, synths, choirs) and 100 corresponding midi chord patterns (8-bar midi loops). We tried to diversify the content of the pack as much as possible. That's why each audio loop in the pack has its own timbre and style of sound: relaxing, fairy, hypnotizing, anxious, exciting, celebratory, uplifting etc.

Also we've tried to cover all common Tempos for this type of music - you'll get the loops from 60 to 100 BPM. As always, all audio/midi loops are Key & Tempo labeled. Nevertheless the advantage of the midi files allows you to change the Key or the BPM, or the Timbre (Preset) to your own taste, that's why your creative possibilities are almost limitless.

The pack will ideally fit the creation of Ambient, Chillout, Chillstep, Downtempo, Chill Trap, Meditation Music, Film Score, Advertising Music etc. And YES, all sound sources are 100% Royalty-Free so you can use them in any commercial projects without paying any royalties. So get this pack right now and let's create!

**Please note: Drums, Bass, FX sounds in the Demo are not included in this pack. The DEMO contains the above-mentioned sounds exclusively for illustration!**

**GENRES:** Ambient, Downtempo, Sci-Fi
