

There aren't any real sounds in this pack, its all artificial!
Produced by real techno producers, who still love their hardware in the studio and you can hear it.
Useful, inspirational, warm and into your face samples & loops!
A total of 834mb royalty-free content which will give you all the elements to build your next techno/tech house/house tracks!

Gear used:

roland juno-60, roland space echo re-201, moog mother-32, moog dfam
