

Astral Trance Vocals offers the best solution for your next Trance and Psy productions. Recorded in absolute quality, these vocals are made to take your tracks to the big stages. Almost 800MB of vocal variations, fusion of cosmic, tribal, ethnic - it has it all.

Vocals are coming in 3 versions:

1. Slightly reverbed - you can add your delays or other FX.
2. Reverbed and delayed (wet) - just drop them in the DAW and you ready to go.
3. Gated - we nailed the famous FX for you, great addition to any track.

Add these vocals to your tracks and you will triple your music's quality, these vocals will give a completely different level to your productions, guaranteed. This pack was designed towards Trance and Psy, but the content can be useful in any other genre like Ambient, Drum & Bass, Tribal House, Techno and basically any other production, where hypnotic vocals are needed.
