

This package is filled with the best Future Bounce construction kits, loops and presets, everything you need to create your next Future Bounce hit!

We broke the kits as much down as we could so you have all the flexibility you need.

Catchybaselines, powerful melodies huge breaks and climaxes, the biggest Future Bounce drops, it's all there.

Just like the midi files and presets, take the sound you like and change it how you want.

We also included 75 FX Channel Presets for Fabfilter ProQ2 & Satur

And as always: All Royalty Free!
