

'Austin Leeds: Future House Essentials' is a brand new must-have sample pack for all Future House producers out there made by Austin Leeds himself and brought to you by W.A. Production. You'll find over 800 MB of the finest Future House samples and loops, as well as MIDI and presets for Sylenth, Spire and Massive.

Producing legend Austin Leeds has worked with the likes of Paul Van Dyke and others, and now you can get some of his production magic in your own tracks.

His songs have been released on all of the major labels out there such as Spinnin, Mixmash, Ultra and others. This totally mind blowing collection of the most powerful, advanced and playful loops, samples and presets can be yours today.

'Austin Leeds: Future House Essentials' contains exactly 631 files. All samples are perfectly cut and intuitively divided into folders.

Melodic loops are bounced with and without sidechaining and the synth presets are provided in banks as well as solo presets.

MIDI files are included included and all content is 100% Royalty-Free.
