

**DESCRIPTION:**

Mold your beats into a dark & dangerous atmosphere of the urban night streets with our new drill sample pack called «Bally - Drill Trap Toolkit». If you're looking for that unique rebellious sound that was born in the depressed areas of London, Chicago and Brooklyn – this pack is definitely for you. So in details...

Arm your beat production with 150+ bone-crunching drill drum loops (full drums, tops & stems), glided 808 bass lines, gloomy melodies, reversed keyboards & synths, cryptic choirs & pad loops, aggressive electric guitar chords and more. As always, most musical loops have fully detailed midi files.

As an integral part of this pack you'll also get a custom-made drill drum kit (kicks, snares, percs, clasp & hihats) and the set of the most suitable drill sound effects (sirens, gunshots, vocal chants & screams, toll bells & more). All you need to build your next face-melting drill banger is inside!

This pack is inspired by such great artists of the drill scene like Pop Smoke, OFB, Fivio Foreign, Ziak, Luciano & Poundz. The pack also fits great to the production of Grime, Dark Trap, Left-Field Hip-Hop and Cloud Rap. And as usual, all the sound materials are 100% Royalty Free so you can use them in any commercial projects without paying any fees. So put on your balaclavas and do your thang, akhi!

**Please note: Every sound featured in the audio demo is INCLUDED in this sample pack!**
