

Developed by producers in our Techno department. The 'Berlin Techno' sample pack gives you fresh tools to start making tracks like the top producers, such as Adam Beyer, Layton Giordani, ANNA, Enrico Sangiuliano and others!

What's different from this pack is that all samples are raw, cutting-edge drum hits and loops so you can begin building your beats. Later play around with any of the synth and bass loops to layer up your track with that top notch quality.

Also including some of our exclusive Sylenth1 and Massive presets from the same producers behind our Techno templates so you can spice up your productions.

The 'Berlin Techno' pack is designed with the dance floor in mind and contains everything you need to produce professional sounding tracks.
