

Big EDM team is proud to present this cutting-edge “Future Bass & Trap Presets” release.

A massive mixture of the the best and most complex presets, that you will ever need to easily flip any production upside down!

This ferocious pack contains everything from the wobbly and wide chords to sharp and energetic leads, perfectly distorted 808 kick presets, deep bass Sounds and more.

Big EDM team took the best sounds from their own and W. A. Production releases and manually compiled them into this amazing soundset.

You will have every material you need to create exciting and ground shaking tracks.

Even if you lack some inspirations.

Included are 196 sounds for super popular xFer Serum, NI Massive and also Sylenth1 and Spire plugins.

Every sound is professionally designed which guarantees the next track you make will be a fantastic.

What’s in this pack:

- 88 xFer Serum Presets
- 34 NI Massive Presets
- 48 Sylenth1 Presets
- 26 Spire Presets
- 100% Royalty Free
