

'Big Room Percussion Loops' is going to spark the creativity and give your sound a true unique and individual touch with some of the clearest and crisp claps, kicks, toms and snares.

Here at The Audio Bar HQ we wanted to be able to bring out the ideas from producer's minds and allow them to use this pack to place those ideas into a project.

If you are new to these packs, they come loaded with construction Kits that will show you the stems of an EDM track.

Using these Drum Loops we help you make an EDM track arrangement and its fundamentals.

All of the essential custom-made drum samples and everything you need to perfectly craft an amazing project is all included.

The pack includes 25 Multi-Layered Drum Loops, divided perfectly in a frequency range to fit your production needs, like percussion loops, top loops, kick loops, and hi hat loops.
