'Billboard Pop Busters Vol 3' from Baltic Audio is a must-have product for producers looking to smash their way into the Billboard Charts. You'll find six top quality Pop Construction Kits and all of the elements you need to create hit tracks, including drums, basses, synths, instruments and vocal chops.

Each Kit contains perfectly mixed instrumentation and will be your essential source for creating instant Pop hits, which are just waiting for a vocal topline to be added.

If you're looking for the sounds of David Guetta, Demi Lovato, Cheat Codes, Ellie Goulding, Diplo, Ariana Grande and Steve Aoki, then this product has you covered.

Each sound and phrase was created by audio experts with the newest production techniques and a passion for delivering only the best content.

MIDI files are included for the majority of musical phrases heard in these Kits: an essential feature for modern producers.

Adapt the phrases in any way you desire and use them to trigger your favourite synth or sampler. Use the MIDI files in conjunction with the included key tagged one-shot files to create new phrases and patterns that blend seamlessly with the pre-recorded content.
