Studio Tronnic features "Brazilian Techno Vocals", a striking and well-crafted vocals package inspired by "Brazilian Techno".

Vocals are the big difference in a song, this package contains intense Long Vocals and FX Vocals, carefully processed and selected to have this characteristic monster aspect, inspired by producers like "Alex Stein, Victor Ruiz, Kalil, Boris Brejcha" and among other great names of the Techno, it still counts with Drum Loops (Kicks, Claps and Hi Hats) and Bass Loops to be a starting point for new ideas or complement in the production of great tracks.

In short, this package was made to satisfy and inspire growers looking for vocals to include and leverage your productions!
