

We couldn't forget the massive success of our previous Brazilian Bass templates, that's why we have made a fresh one updated to the 2019 sound! Carnival is a template with pumping basslines, melodic breakdown plucks, groovy drums and complex mixing techniques.

Carnival is inspired by names like Dazzo, Alok, Liu, WOAK, Sevens and others. We wanted to make sure that you guys can learn the secret techniques behind those big producers.

The template takes you back to the roots! Containing MIDI files, drum loops, one-shots, FX samples, Spire & Sylenth1 presets, and the signature Brazilian Bass style drop.

This is the perfect template if you want to learn this trending genre and create your next Brazilian Bass style track.

What's Inside The Template?
