

The hottest genre of **2018** right now! **Future Bass** had a triumphant start covering most of the party venues around the world, and is **definitely** a sound to not miss out.

Known for having those **powerful** supersaws, Trap style hi hats, and airy dynamics, creating **complex** and awesome vibe. The template we created has just all you need, plus some nice mellow **vocals** to make it to the next level.

Inspired by names like **Marshmello**, **Slushii**, **Au5**, **Crankdat** and others! We want to make sure that you guys can learn the secret techniques behind those big producers.

The **template** is packaged with MIDI files, drum loops, one shots, FXs, epic synths and Future Bass style melodies ready to blow your speakers. Also, we included 5 **exclusive** sound design and mixing tips to nail your future productions in the genre.

#### **What is included in this template?**

- **35 Audio Files**
- **10 Presets (Serum, Spire)**
- **7 MIDI Files**
- **iZotope Ozone 8**
