

Cloudy Samples proudly presents the "**Chillstep Times**" - designed for Chillstep, Future Garage, and Ambient Electronica, this pack delivers everything needed to craft emotive and immersive tracks.

Featuring rich drum loops, crisp one-shots and organic percussion, every element is designed to add depth and character. Ethereal FX samples, including down-falling sweeps and SFX, bring space and movement. MIDI construction kits provide fully customizable chord progressions, melodies and basslines for instant inspiration.

An exclusive Ableton Live 10 template is included, showcasing a professionally arranged and mixed project using only Spire synthesizer. Perfect for deep, groovy and emotive productions. Even if you're not a user of Ableton, all of the construction elements are exported into folders - WAV loops, MIDI files and Spire presets, so you can fully access the kit without using this DAW.

Please Note: To access Ableton Live 10 template project, you need an up to date Reveal Sound's Spire.
