

Planet Samples presents "Cinematic Future Sounds"

Cinematic Future Sounds is a full FL Studio Project.

This project uses only one VST instruments: Nexus 2 includes the full arrangement with wav files, Midi files, instrument presets, mixing, track leveling, and automation of each instrument. It is a 100% royalty free template project.

You can use this project as an educational and inspirational tool to learn how all the sounds can be fit together to create a full, solid cinematic tune.

If you are not a FL Studio users don't worry, all the channels are exported one by one as stems and you can put them

in your favorite DAW software. Midis also included.

This project is not only for cinematic producers, is suitable also for Trance producers who looking for that special cinematic sound to create a Trance Anthem.

The tempo of the track is 130bpm and is friendly to any dance production.

Buy this project first before your friends do and create your next cinematic track with style
