

Cloudy Samples is proud to present the "**Cinematic Timelapse**" - collection of cinematic ambient sounds, music backgrounds, textures and soundscapes. From soothing piano loops, lush ambient pads and emotional strings to cinematic samples, nature textures, impacts and dark, disturbing sounds - you will find everything you need to fill your next production with the amazing mood. There is also a nice set of MIDI chord progressions, so you will be able to put your lovely sound in it. Many possibilities are waiting for you in this pack.

170 richly detailed sounds in one selection - each sound included in this library softly tremors with gradual movement and development. Works with every DAW on the market, so no need to worry about compatibility. Everything categorized in folders for an easy access and 100% Royalty-Free.
