

'Deep House Kits Vol 3' by Essential Audio Media brings you eight Construction Kits full of catchy loops inspired by producers such as EDX, Calvin Harris, Calippo, MK, James Hype and more.

Every single Kit is split up into the following parts:

MIDI: Each Kit has its own MIDI folder to give you the freedom of changing any melodic part or use your own sounds from any of your favorite soft synthesizers.

One-Shots: This folder includes all the single drum one-shots that were used for each Kit and allows you to drag and drop your favorite drum samples into your sampler and create new rhythms.

Stems: Essential Audio Media exported all the stems as 24-Bit WAV files so you can drag and drop them at once into your DAW and you'll have the full Kit.

Loops: All Stems are also available as 4-8 bar loops exported as 24-Bit WAV to give you more freedom to make any stem file fit into your project.

Presets: These are provided for every synth used to let you tweak each sound exactly how you need it for your own productions.
