

'Club Essential Series: Deep House Kits Vol 4' brings you another set of five Construction Kits inspired by producers such as EDX, AVAION, Jay Pryor, Gorgon City, Meduza, Route 94, Calippo and many more.

Every single Kit is splitted up in the following parts:

MIDI: Each Kit has its own MIDI folder to give you the freedom of changing any melodic part or use your own sounds from any of your favorite soft synthesizers.

One-Shots: This folder includes all the single drum one-shots that were used for each Kit and allows you to drag and drop your favorite drum samples into your sampler and create new rhythms.

Stems: Essential Audio Media exported all the stems as 24-Bit WAV files so you can drag and drop them at once into your DAW and you'll have the full Kit.

Loops: All Stems are also available as 4-8 Bar loops exported as 24-Bit WAV to give you more freedom to make any stem file fitting into your project.

Presets: In this folder, you'll find the presets used in the Kits. Essential Audio Media have included presets for the Spire VSTi.
