

'Club Piano House' by Immense Sounds is five outstanding Construction Kits featuring WAV, MIDI, and Presets.

Piano house, a subgenre of house music, emerged in the late 1980s. It's characterized by its upbeat, joyful sound, often incorporating strong piano melodies as the central element. This genre combines the rhythmic, electronic elements of house music with the soulful, melodic appeal of the piano, creating a sound that's both danceable and emotionally resonant. Piano house tracks typically feature repetitive piano riffs, strong basslines, and often include vocals, ranging from soulful singing to spoken word samples. This genre became popular in nightclubs for its ability to uplift and energize crowds, offering a harmonious blend of electronic beats and classical piano harmonies.
