

If you're tired of the same EDM, commercial House sounds and packs out there, don't worry we got something special for you to refresh your catalog.

We didn't want to give it any commercial style title name, just as it is, Cool Retro Digital House!

The most important is that we created 6 Full Construction-Kits ready to use with all the loops, presets, and effect settings. The next thing included is a list of material for those purist producers like key-labelled drum loops, one-shots and synth/melody loops. Not just all that, but we also include 40 NI Massive presets!

So if you're interested in making music that needs to stand out of the usual out there in Spotify and Sound, Cool Retro Digital House is the pack for you!

What's inside the pack?

- Over 3GB Of Audio Files, Presets and more;
- 6 Construction-Kits;
- 20 Drum Loops;
- 60 One-Shots;
- 20 Synth/Melody Loops;
- 20 MIDI Files;
- 40 NI Massive Presets;
- All key-labelled & tempo assigned;
- 100% Royalty-Free.

Requirements:

NI Massive Version 1.5.5 or higher.
