

Are you looking to grab almost 450 MB of must-have Future Bass sounds, MIDI and presets and links to download killer video tutorials?

Are you looking for the inspiration and resources to make great music right now?

This is Future Bass - the brand new production toolkit from Sample Tools by Cr2.

Containing essential 161 audio loops and one shots, 80 killer midi files, 146 ultra usable synth presets and 3 video tutorials outlining production techniques used in the pack.

We also a music productivity video with Mike Monday on increasing your studio output, the ultimate guide to pitching your music to labels and industry professionals from the Music Marketing Academy's Budi Voogt and finally a booklet containing Future Bass production tips and tricks.

We are proud to put the Cr2 name to this pack. We are Sample Tools by Cr2 and this is Future Bass!
