

“Crazy Serum” is the craziest soundbank for Serum ever! Will get the most out of this synth. Every preset is a top-quality sound that will be very useful for Neuro Bass, DnB, and music like Skrillex.

if you need powerful sounds then this serum is the right choice. I've been creating this soundbank for the last month and I'm sure I took care of the smallest detail. Sounds of this type will be useful in many genres that need crazy sounds!
