'Cyberpunk Dystopian Voices & Phrases' by Immense Sounds is the 1st pack in this series and focuses on Voices & Phrases side but we have also as a bonus to get you started included the demos as kits with MIDI, Serum Presets, Stems, and Voices & Phrases from the pack.

Cyberpunk and Dystopian genres delve into imagined realities rife with technological advancements and social decay. Cyberpunk, often set in sprawling metropolises dominated by massive corporations, explores the fusion of man and machine. The genre dissects the ethical quandaries of AI integration, genetic modification, and invasive surveillance. Neon lights, rogue hackers, and artificial landscapes serve as its stylistic and thematic backdrop.

Dystopian narratives, on the other hand, focus on societies corroded by authoritarian regimes, ecological disasters, or social collapse. This genre amplifies current fears to demonstrate the potential pitfalls of humanity's choices. While Cyberpunk is specific to high-tech realities, Dystopian themes can encompass a variety of settings, from post-apocalyptic wastelands to Orwellian nightmares.

Both genres are cautionary tales that question the trajectory of human innovation and governance. They serve as mirrors, reflecting not just what our world could become, but also the elements within it that are already slipping toward these unsettling futures. These genres captivate because they challenge us to confront uncomfortable truths, making us ponder the ethics and implications of our evolving world.

This top-quality pack features Original Voices & Phrases to add your own FX flavours, Phrases & Voices with different types of voice styles like low-voices, glitchy, telephone, robotic, malfunctioning, froggy with FX and without.

Product Details:

2953 x Total Files.
82 x Original Phrases 32 With Slight Mood Variance.
82 x Subtle Shimmer Voice Phrases 32 With Slight Mood Variance.
82 x Hollow Voice Phrases 32 With Slight Mood Variance.
82 x Sub Low Voices 32 With Slight Mood Variance.
82 x Glitchy Voices 32 With Slight Mood Variance.
140 x Original Voices 39 With Slight Mood Variance.
140 x Voices 01 Man Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 01 Man Not Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 01 Man Not Through Telephone with Reverb 39 With Slight Mood Variance.
140 x Voices 02 Woman Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 02 Woman Not Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 02 Woman Not Through Telephone with Reverb 39 With Slight Mood Variance.
140 x Voices 03 Subtle Glitches No Reverb 39 With Slight Mood Variance.
140 x Voices 04 Man Low Voices Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 04 Man Low Voices Not Through Telephone No Reverb 39 With Slight Mood Variance.
140 x Voices 04 Man Low Voices Not Through Telephone with Reverb 39 With Slight Mood Variance.
140 x Voices 05 Old Style Robot with Reverb 39 With Slight Mood Variance.
140 x Voices 05 Old Style Robot with No Reverb 39 With Slight Mood Variance.
140 x Voices 06 Malfunctioning Style No Reverb 39 With Slight Mood Variance.
140 x Voices 07 Confusion Style No Reverb 39 With Slight Mood Variance.
140 x Voices 08 Froggy Style with Reverb 39 With Slight Mood Variance.
140 x Voices 08 Froggy Style No Reverb 39 With Slight Mood Variance.
Txt Files Of All Words & Phrase.
5 x Construction Kits from The Demo.
101 x 24-Bit Wav Stems.
31 x Demo MIDI Files.
31 x Demo Serum Presets.
Demo Kits Key Labelled and all 100BPM.
1.48GB Zipped | 2.22GB Unzipped.
Everything is 100% Royalty-Free.

Please Use Serum 1.36b3 Or Higher. Please Note: Keep your software legal and up-to-date to avoid any issues when loading your new presets.

About Presets In This Pack

Please note to beginners if you do not own the above Serum VST Instrument you can use another virtual instrument of your choice with your own presets or bought presets to assign the vst instrument to the MIDI files and create your own sound, by all means, use the included VST Instrument presets if you have them royalty-free.

1. Neon shadows flickered in the rain-soaked alley.
2. In the city of glass and steel, truth was a forgotten currency.
3. I traded my dreams for a handful of bytes.
4. Her soul was a tangled mess of code and emotion.
5. She walked with the grace of a corrupted algorithm.
6. The city was an infected motherboard, pulsing with artificial life.
7. He bled pixels on the electric pavement.
8. Cyber-enhanced street rats ruled the asphalt veins of the city.
9. The neon jungle hummed with the song of a thousand hidden secrets.
10. The motherboard sprawled out before us, a metropolis of digital dreams.
11. Her eyes, pure synthetic sapphire, scanned the data stream.
12. Our love was an obsolete code in a modern matrix.
13. Beneath the synthetic skin, his heart beat to the rhythm of binary.
14. The cold touch of steel and silicon was a harsh reality.
15. In the grand scheme of data, we were but a glitch.
16. We danced to the electric hum of the neon night.
17. His memory was a tangle of broken circuits and fragmented data.
18. In a world of plastic and pixels, we sought something real.
19. She was a rogue AI in a system of compliance.
20. Memory banks replaced by cloud storage, hearts replaced by algorithms.
21. We painted our dreams on the canvas of the virtual skyline.
22. Ghosts in the machine, that's what we'd become.
23. He was a poet in a world that had forgotten words.
24. The rain tasted of ozone and forgotten promises.
25. His code was his poetry, the cybernetic city his canvas.
26. Caught in the cogs of the corporates, we yearned for freedom.
27. We traded starlight for neon, nature for silicon.
28. In the city of bytes and shadows, reality was negotiable.
29. Her code-skin shimmered in the pallid glow of the neon sun.
30. Caught in the web of the metropolis, we were pixels in the grand design.
31. Memory chips and silicon veins ran under the city's skin.
32. Data was the new god, and we were its disciples.
33. Her synthetic heartbeat played the symphony of the cybernetic dawn.
34. The digital wind whispered secrets in binary.
35. AI dreams dripped down the walls of the chrome city.
36. The neon pulse of the city beat in our veins.
37. We were architects of anarchy in a city of code.
38. Her synthetic smile concealed a hard drive of secrets.
39. The city throbbed with the pulse of a thousand data streams.
40. Beneath the silicon sky, our synthetic hearts beat as one.
41. Pixelated portraits of a dystopian dream haunted the digital darkness.
42. In the heart of the machine, love was an unexpected algorithm.
43. The cold steel city cradled us in its cybernetic arms.
44. Data dreams dripped from the digital skyline.
45. With cybernetic eyes, he saw the world in a cascade of codes.
46. We were but ghosts dancing in the digital rain.
47. Cybernetic sinners in a sanctuary of silicon and steel.
48. In the humming heart of the city, truth was a corrupted file.
49. She was a solitaire in a game of binary.
50. Our dreams were painted in pixels and neon light.
