

“Cyberpunk Serum” Cyberpunk is a story that lives in human fantasies and is reflected in movies and video games. It is a crazy vision of the future filled with futuristic, powerful sounds. We have done our best to convey the atmosphere of this world in a serum synthesizer.

This pack contains 70 sounds for the Serum and 100 samples, carefully selected from our sample packs. We used them to create a project that you can listen to while listening to the demo. Also, this project is included as a bonus.

This pack It's much more than a Soundbank. You get everything you need to create Cyberpunk, Darksynth, and derivatives music.

70 fresh sounds for Serum, 100 Samples, and a fully arranged project for your DAW.
