

“Cyberpunk Template” immerses yourself in the world of the future. “Cyberstriker” is an incredibly powerful track full of Cyberpunk atmosphere. This project is based on a Serum synthesizer and you need only this VST to open this project (not counting the OTT which is free) In this project you will learn how to create futuristic sounds in Serum and how to connect them together into layers. How to arrange Cyberpunk songs and build suspense. How to make powerful mix & master with your DAW stock plugins and much more!
