

## CRYSTALLION (a Cybertron series)

Davide Scuteri and Ayra present **Crystallion (a Cybertron series)** for **Reveal Sound Spire 100 presets!**

Introducing **Crystallion** — a mesmerizing collection of **100 cinematic bell, mallet, crystal, and chime presets** for Reveal Sound's Spire.

Designed to infuse your compositions with clarity, purity, and shimmering atmosphere.

From delicate bell tones to resonant mallet strikes and ethereal crystalline textures, **Crystallion** offers a diverse palette of sounds that evoke both wonder and refinement.

Whether you're scoring a film, crafting ambient soundscapes, or adding magical accents to your music production, this soundset delivers expressive beauty and sonic finesse.

### Main Features:

- **100 pristine presets:** including bells, mallets, crystalline tones, and cinematic chimes — each crafted for clarity and depth.
- **Purely cinematic sound quality:** ideal for film scores, trailers, cinematic ambiences, and atmospheric transitions.
- **Dynamic expressiveness:** presets are fully modulated, enabling evolving textures and emotive variations that bring motion and life.
- **Versatile creative use:** perfect for enchanting soundtracks, magical underscores, subtle melodic layers, or shimmering highlights.

### Product Details:

- 100 Spire presets — bells, mallets, crystals, and chimes, all meticulously designed.
- Each preset is crafted from scratch using only Spire, emphasizing originality and tonal purity.

Let Crystallion elevate your sound to luminous heights — where purity meets cinematic elegance.

**Requirements:**

Reveal Sound Spire synthesizer Version 1.5.11 or higher
