

Pulse Protocol (a Cybertron series)

Ayra and Davide Scuteri present **Pulse Protocol (a Cybertron series)** for **Reveal Sound Spire 100 presets!**

Unleash cinematic energy and dancefloor motion with **Pulse Protocol** — a powerful bundle for **Reveal Sound Spire**, blending EDM intensity with cinematic depth. Whether you're building epic trailers, soaring builds, or dancefloor drops, this pack delivers inspired motion and narrative drive from the very first note.

Main Features:

- **70 Arpeggiators** — fast, rhythmic arps that range from shimmering patterns to driving pulses
- **30 Sequences** — melodic and harmonic progressions that evolve dynamically
- Designed to work in tandem for layering and interplay

Product Details:

- **EDM power** — energetic grooves, syncopated motion, rich harmonic content
- **Cinematic expression** — evolving textures, tension & release, expressive modulations

Expect everything from shimmering, tremolo-style arps to tight plucky pulses, from emotive sequence beds to evolving rhythmic motifs. The sounds are production-ready.

Use Cases:

- Trailer intros, drops & builds
- Epic breakdowns and transitions
- Main melody or support motifs in EDM / cinematic hybrids
- Layering with pads, leads, basses — the arpeggiators and sequences are built to integrate

Pulse Protocol gives you a toolkit to drive motion and emotion at once. The arpeggiators inject rhythm and energy, while the sequences provide melodic and harmonic direction. Used together, they allow you to sculpt powerful transitions, tension, and release — whether you're working in EDM, cinematic, hybrid, or trailer music.

Add **Pulse Protocol** to your library — for motion, drama, and sonic propulsion in every track.
