

STELLAR SPARKS (a Cybertron series)

Davide Scuteri and Ayra present **Stellar Sparks (a Cybertron series)** for **Reveal Sound Spire 100 presets!**

100 inspired high quality **sci-fi** Pluck presets.

Stellar Sparks is a cutting-edge sound pack for Spire, designed to infuse your cinematic and sci-fi productions with expressive, futuristic plucks. From delicate, ethereal tones to sharp, otherworldly textures, this collection delivers the perfect balance of warmth, clarity, and depth.

Each sound is tweakable with modulation controls to get organic movements and variations.

All 400 Mod Macros are mapped to vary the sound in several inspiring manners.

Main Features:

- **A universe of sonic possibilities:** Explore a diverse selection of plucks, ranging from lush, evolving textures to crystalline, percussive strikes, perfect for melodies, arpeggios, and atmospheric layers.
- **Superior cinematic quality:** Each preset has been meticulously designed to ensure a rich, detailed sound that fits seamlessly into professional film scores, trailers, and game soundtracks.
- **Creative versatility:** Whether you're crafting evocative soundscapes, futuristic themes, or dynamic sequences, "Galactic Plucks" provides the essential tools to bring your vision to life.
