Code Sounds is proud to present Dark Ambience 2 an exciting and mind-bending follow up to the original and highly popular Dark Ambience sample pack. This latest sample library for Film, Music, Trailers and Game Audio is an exhilarating exploration into the disturbing depths of dark, experimental sound design focused on Drones, Atmospheres and FX!

Dark Ambience 2 features a premium sample library with 600 MB of dark ambient seamless loops and oneshots with fx tails. With a total of 94 ominous tones and textures including complex and multi-layered drones, atmospheres, shifting noise shapes, alarms and more with the full layered sound and each of its individual ambience layers. This allows producers to mix and match layers with Key and Tempo information for an infinite span of dark ambience and drones.

Also included is an inspiring set of 20 Dark Ambient FX with extended reverb tails and 12 Lo-Fi Ambient Beats and stems with deep thunderous kicks, saturated glitch hi-hats, and granular dusty snares and experimental percussion. Royalty-Free!
