

We are proud to present one of the biggest product from the entire Freak Music collection - "**Dark Ambient**". It is a brand new collection of gorgeous dark samples, sounds, pads, loops, SFXes, matching drums and drum loops, perfectly selected multisamples and a lot of more content ready to build and boost your next production. Construction kit and Ableton Live 10 template together with Spire will absolutely fill the whole collection. This full length template contain great groove, and this is the best choice if you like dark mood, slowly filling your brain with more mesmerizing sounds. Even if you're not an user of Ableton Live, we have exported MIDI Files, Loops and Spire presets to give you the maximum possibilities on this template. The full project will show you how to put together, arrange and mix the track, use chord progressions and how to mix the drums. All sections are color-coded and named correctly so you know exactly what you are looking at.

All of these sounds, one shots, loops, presets, MIDI Files, pads and more were crafted with maximum precision, so everything included will fill your next track and help you produce the next top one. You are getting absolutely all melodic content corresponding to MIDI Files, so you have an unlimited possibilities to change the tempo, velocity or key, so combination with synth multis included is giving you the maximum flexibility. **It's awesome.**

With this collection you'll be able to create something fresh in your favorite genre. This immense product comes with hundreds of sounds designed for producers of ambient, chillstep, dark ambient and acid genres. Drop fresh new content directly into your projects or chop and splice for creative inspiration & ideas. Get that slick pro-sound straight out of the box and take your productions to the next level! All of the content is 100% royalty-free, so once purchased, you can use these sounds in your commercial releases **without having to pay any hidden costs.**

Please note: To access presets, you need Reveal Sound's Spire v1.1.4 or above.
