

'Dark Progressive Sessions Vol 1-3 Bundle' brings you fifteen unique Construction Kits inspired by artists such as Natasha Wax, Boris Brechja, Miss Monique, Adriatique, Solomun, Artbat, Tales Of Us & Anyma. This Bundle is filled with vocal phrases, Sylenth1 & Spire VST presets, dark lead sounds and punchy pluck sounds. The sounds inside this pack can be also useful for other genres like Deep House, Tribal House & Techno.

Every single Kit is split up in the following parts:

MIDI: Each Kit has its own MIDI folder to give you the freedom of changing any melodic part or use your own sounds from any of your favorite soft synthesizers.

One-Shots: This folder includes all the single drum one-shots that were used for each Kit and allows you to drag and drop your favorite drum samples into your sampler and create new rhythms.

Stems: Essential Audio Media exported all the stems as 24-Bit WAV files so you can drag and drop them at once into your DAW and you'll have the full Kit. They also added a dry folder where the synths are without any effects so you can add you own reverb or delay settings.

Loops: All stems are also available as 4-8 Bar loops exported as 24-Bit WAV to give you more freedom to make any stem file fitting into your project.

Presets: Inside this folder you'll find the presets used in the Kits. Essential AudioMedia have included presets for the Spire and Sylenth1 VSTi's.
