

Produced in collaboration with talented trance producer and sound designer Darren Porter, we are proud to present Darren Porter Spire Essentials Volume 1.

This sound set is perfect for the trance producer after the harder, tech-trance inspired side of trance, whether that's pure tech-trance, psy-trance, electro-influenced trance, or even uplifting trance. It includes sounds influenced by artists such as Bryan Kearney, Simon Patterson, Jordan Suckley, Mark Sherry, Dave Parkinson, Will Atkinson, Giuseppe Ottaviani, John O'Callaghan and many others.

Here are a few testimonials from prolific producers in the scene:

“Our favorite spire bank, Darren proved that he isn't only an amazing producer, but also an amazing sound designer. Great addition to our library and we will be definitely using it in many of our upcoming productions” – Aly and Fila

“Was bummed to not be able to partake in the making of this bank with Darren on account of finishing up all my album work, So I told him it was time for him to spread his wings and show the world what he could do on his own. Well spread them, erm, he has!!! Covering all the sounds you've been asking us for and then some!” – Sean Tyas

Amazing soundbank from Darren, I will be using this a lot. Essential addition for any producer” – Manuel le Saux

“Darren Porter is one of the very few sound designers who can perfectly predict what trance will sound like in near future, his bank is a true testament of his abilities and it's a necessary addition for any trance producer!” – Driftmoon
