Dawn of Dreams by Solidtrax

INTRODUCTION

This sound bank is made for Reveal Sound Spire and ReSpire and contains 100 meticulously crafted presets. If you are searching for the perfect sounds to inspire you and to use in your next ambient, film score or new age track for example, this pack will give you a jump start!

After spending a lot of time with Spire, it opened up to us and started to show us how smooth and sophisticated it can be. Beautiful lush and evolving pads, shimmering keys, cinematic strings and smooth and deep basses. Spire can do it all!

We made heavy use of velocity, modulation wheel and the modulation macros, so that you can easily tweak the sounds to your liking!
