

Audentity Records presents: Deathstep By Wubbaduck, a big power pack with a huge amount of serum presets, loops and one-shots, ready to blow your mind with the most relevant sounds of hardcore dubstep, in total 601 files.

Expect to find gigantic bass loops, dangerous and dirty synth presets, punchy drum loops, heavily distorted and crunchy bass sounds, modulated FX and more.

The sounds and presets are inspired by famous producers like Quite, Evilwave, SYN and many more!

The best way to power up your music and get heard by bigger audiences.

These sounds can easily fit in genres like riddim, dubstep, deathstep, drum and bass, hybrid trap and more.

The pack contains a massive amount of 169 serum presets, which have 4 usable macros to spice up your tracks even more.

Besides the 169 serum presets, we also included 151 bass loops, 60 drum loops, 41 bass one-shots, 108 drum one-shots and 72 FX.
