

'Deep House MIDI Megapack' is an enormous collection of over 400 loops designed for Deep House but they can also fit for Garage, Classic House, Melodic House and any other House subgenre, depends only on the presets you will apply. Function Loops House wizards recorded all the possible chords to craft this product, it's all served for you on the plate, just take it and use them wisely.

Inside you will find Pianos, Keys, Various Synths, Organs etc., all in MIDI format, giving you endless possibilities and maximum flexibility to build your own melodies easier than ever.

As a bonus, you will also find extra Bass and Synth MIDI loops, collected from previous sample packs.

P.S - these MIDI files fits great with our (and various other) Spire soundbanks.
