

Ghost Digital Music is proud to present Deep Melodic Kits Volume 01, a quality crafted sample pack containing 3 outstanding construction kits, giving you a solid foundation for composing melodic deep progressive house & melodic deep house.

This pack was crafted by producers Katrin Souza and Tyler Schauman.

You may find Russian producer Katrin Souza's music on labels such as, Enhanced, Silk Digital, Intricate Records, Saturate Audio, Yin Yang, Incepto Music, Encanta, BC2., Progressive House Worldwide, Nueva Digital and many more.

Florida based producer, Tyler Schauman has several years experience conducting A&R for labels Pineapple Digital & Pineapple Grooves.

Both Katrin and Tyler's tracks have been supported by many world renowned dj's and producers.

All construction kits contain key elements to build innovative deep melodic music.

Each construction kit contains, loops, mastered track, MIDI files and one-shots, giving you the essential material to disassemble, re-engineer and construct an original idea.

Our pack includes bass one-shots, various drum hits, fx samples, orchestral elements, and synth one-shots.

Every samples in this package is BPM synced and labeled by key, enabling you the creator to construct professional quality original material.
