

Looking for the DOPEST Samples?

'DOPE Samples Vol.1' is the first installment to our new sample album series. This one is packed with random DOPE samples! Everything from sad piano tracks, movie scores to the sound of old rare foreign vinyls.

As a sample based producer, 2DEEP understands the struggles that come with it. With copyright laws getting tighter, you're always wondering if the original creator of the sample will clear your record when you go to seek clearance for it.

With a team of professionals, 2DEEP has put together another full blown, 10 track album packed with Royalty-Free instrumentals that sound just like record samples for you to chop and flip to your liking. Included are the full tracklines to each instrumental so you're able to mix everything down the way you want.

With 2DEEP having production credits with 50 Cent, Tank, Fetty Wap, Method Man, Rick Ross, Ghostface Killah, Jadakiss, Uncle Murda, Shyheim, Sean Price, Epic Rap Battles Of History, Rockstar Games and countless other artists & companies, you can be sure that you are getting A+ production material to work with.

If we didn't win you over yet, make sure to check out the audio demo showcasing 30 sec. of each track to sample from. You will quickly realize that any producer will feel right at home with these sounds.
