

Trance Euphoria are proud to release 'Dream State Trance MIDI Anthems' featuring 50 of the finest Trance MIDI Files.

It's important and one of the key factors in trance music that you have memorable melodies, so if you have lost your creativity or are looking to learn how melodies are created look no further than this pack, featuring 50 x 8 Bar Trance Melodies you can use them as is or change the notes about to suit your own needs or even study how the melodies were constructed, these are for all trance producers from beginner to professional.

Why MIDI And Not WAV?

With MIDI you have the ultimate format where you can re-arrange notes, velocities, transpose, change MIDI lengths etc and assign your own VST Instrument or Hardware of your choice all this without any audio issues, to do this with audio wav file is virtually impossible or would take some messing about to achieve and with some specialist tools which cost a fortune and the results are not always the best with some audio material, having MIDI changing or keeping the same sound assigned and moving notes about is a breeze and takes no time at all and your audio always stays the same quality you set, also having 50 melodies at your disposal you could have the potential of 50 new tracks surely these MIDI's will give you that creative edge you're looking for to your next hit.
