EDM House Logic Pro Template Vol. 1 (Protocol Records Style)

Many of you would like to learn how to make their own high-level EDM tracks and to release them on the label. This template will help you to understand the intricacies of bass line creating and bass staging. Also, you will learn how to properly handle the sounds by the necessary plugins for a good result at the output.

The template shows how to generate a powerful bass and rhythm section for the breakthrough sound.

This template includes a complete arrangement with chain effects, MIDI data, automation, samples and presets.

Through the study of templates from Ancore Sounds, you will learn how create your own high-quality tracks.
