

Soundclan Music is proud to present you with a unique and exclusive set of sounds in a new product «EDM Monster Sound».

This unique library, over one gigabyte in size, makes it easy for you to work with effects and sound design, transitions and drops in your EDM tracks.

Style doesn't matter.

Expands the scale of a set of 128 preset sounds for a great Spire synthesizer that has tremendous potential and unique ability to create unique sounds, including effects. You can turn the knobs and adjust any parameters as you like, giving you flexibility and authenticity.

Here you will find downlifters, FX hits, FX shots, impacts and kick impacts, uplifters and loops.

Perfect for any style of dance music such as Techno, Trance, House, Drum And Bass, Dubstep and many more, as well as sound design and music for films, games and trailers.
