

For those who don't want to just keep up with the times or get lost in the dust of yesterday. We welcome you to get inspired to create, get ahead of the game and blaze your way into the future. Big EDM is giving you, EDM of Tomorrow.

Let the building begin with 5 professionally designed construction kits. Our kits come loaded with all the song segments you need, such as breakdowns, drops, bass lines, and leads. Choose the direction with any of the included plucks, arps, wet/dry sounds, acoustic guitars, smooth bass, powerful synths, melodic pads, upbeat leads, and emotive atmospheric sounds.

Going above and beyond just a kit with song stems we have included additional complimentary one-hit sounds. Open and closed hi-hats, additional cymbals, deep kicks that pack a punch and kicks that are subtle but still strong, snares that have an electro "pop" and snares that sound acoustically organic. Choose from any of the included melody and drum loops or make your own from our library of one hits and presets.

Our audio samples utilize the latest in modern technology and are second to none when it comes to quality. If you want perfectly balanced and top-notch professional sounds, then lead the way with EDM of Tomorrow from Big EDM.
