

## Elektro Synth – Spire Sound Bank

New Loops presents Elektro Synth – Spire Sound Bank. A collection of Spire presets for Electro, Synthwave, Synth Pop, Ambient and other Electronic Styles.

Elektro Synth pushes Spire to the fringes of reality, with huge ethereal pads and keys, deep soundscapes, and plucks from the distant future.

You'll find 64 patches with Mod assignments that twist each patch into new variations. All patches have been carefully made to be useful in music and are level matched – this isn't a sound bank of weird noises!

A diverse collection, Elektro Synth will find its way into many genres of electronic music from House and Techno to Breakbeat and Drum 'n' Bass.

As with all New Loops sample packs, once purchased Elektro Synth – Spire Sound Bank is 100% royalty free to use in your songs and audio productions. We are sure you will find this sound library a great source of inspiration for years to come.

### Features

- 64 Spire presets
